

My ideal year..

#

Decide your overall goal for the whole year in terms of technique, what would you like to accomplish that you can't do right now

#

Write in what you need to focus on (different events) for the 4 quarters (Q1, Q2, Q3, Q4) of the year from wherever time you are starting!

#

Write in which arias you need to get ready for each event and what you will need to do/practice/pay attention to, to realize your goal.
